MORE DAZZLING IN COLOR THAN THE SHOWY Golden Gleam, our new Nasturtium Scarlet Gleam has been acclaimed the outstanding introduction for 1934. The fiery orange scarlet flowers are fully double, very large, well formed and pleasingly sweet scented. Scarlet Gleam has been officially recognized by the Royal Horticultural Society in London with the granting of its famous Sherwood Cup, for the most meritorius exhibit at the Great Spring Show at Chelsea and was chosen for trial at Wisley. The California Spring Garden Show of Oakland chose it as the winner of its coveted Silver Medal for the outstanding new introduction of the year.

Favorable crop prospects make it possible for us to co-operate with you in offering this sensational new Nasturtium at a considerable price reduction. The following prices are effective immediately on all future orders as well as on those now booked.

Glorious  
Gleam  
Hybrids

Chosen for trial at Wisley.

●

We offer you Gleam Hybrids, a mixture of colors which we have scientifically developed through line breeding and selection, using the results of our original crosses as a starting point, but they are not hybrids in the sense of unproven first generation crosses.

The flowers are uniformly double, large, well formed and delightfully sweet scented, while the stems are long and wiry, bearing the numerous flowers well above the foliage.

The color range is wide and well balanced, including glorious shades of salmon, golden yellow, orange scarlet, cerise, cream yellow, maroon, orange, crimson, and gold flushed scarlet.

Favorable crop conditions also enable us to offer you these Glorious Gleam Hybrids at prices decidedly to your advantage.
